

To whom it may concern,

You are joking right? The television today is saturated with vulgarity, sex and profanity. We do not need or want any more of this filth on the public free airwaves. That is what cable TV is for. Individual who want to watch that type of T.V. can should have to pay for that type of content. The American taxpayer **should not!**

**Do your job.**

Sincerely,  
Kim Warren
